

# Borough of Glen Rock

Division of Public Safety  
Parking Committee

## NOTICE TO GLEN ROCK CBD MERCHANTS & EMPLOYEES

As the Governors of New Jersey and New York have lifted COVID-19 restrictions allowing more people the option of returning to work, the Borough of Glen Rock has revised certain aspects of the Residential Commuter Parking and CBD Employee Permit Parking regulations that were implemented due to the COVID-19 situation. The Mayor and the Council of the Borough of Glen Rock have authorized several amendments to its permit parking regulations.

Beginning July 1st, 2021, the sale of 2021 CBD Employee Parking E-Permits will begin. All Employee Parking E-Permits purchased in 2020 will remain valid through March 1, 2022. A 30-day grace period will be provided before enforcement is to begin.

When applying for an employee permit, *proof of employment is required*. All documentation should have personal identifiers redacted such as social security, birth date, salary information, etc. **Do not upload any documentation without the proper redactions being made.**

Permits are available online only: <https://glenrocknj.t2hosted.com/account/portal>. The fee will be \$50.00 per year, per vehicle. *Employers, not employees, are required to apply for and manage all permits*. All permits are virtual, based upon the employee's vehicle license plate number, replacing the physical parking permits used in the past.

The current Resident Commuter Parking area established along West Plaza Extension, between West Plaza and Glen Avenue, will **temporarily** be established as mixed use Resident Commuter and CBD Employee E-Permit Parking until further notice. Included with this letter you will find a map of the currently available CBD Employee Parking locations, including the **temporary** revision. Please note this is a **temporary** measure. As we return to normal, CBD employees will eventually be asked to park in "Employee Only" Parking as they were pre-COVID.

The cooperation of all business owners and employees is essential to ensure that the maximum level of on street parking is available for those who choose to shop local and support our Central Business District.
